## PROFESSIONAL SUMMARY

With over 25 years of experience cultivating innovation in the information technology sector, I bring a wealth of expertise in strategic planning and technology project management. I am passionate about driving innovation processes and have a proven track record of leading technology innovation projects across various industries.

## AREAS OF EXPERTISE

- Management Consulting
- Management Strategy
- Agile Programming Methodologies
- ERP implementation

### Technology and Innovation Project Manager

2017 – 2023

ExcelCall SA, Guayaquil, Ecuador.

ExcelCall, as the platform based in Ecuador, South America, I provided technology innovation consultancy services to clients across Ecuador and neighboring countries, covering diverse industries like aquaculture, manufacturing, sports, and retail. In my role as a Technology and Innovation Project Manager, I spearheaded transformative projects. I led cross-functional teams to implement groundbreaking solutions.

### IT Manager

2008 – 2017

SGS Société Générale de Surveillance SA, Guayaquil, Ecuador.

During my tenure as the IT Manager, I spearheaded the implementation of key projects that had a significant impact on the company. This included the successful establishment of three data centers dedicated to vehicle technical inspections in Ecuador, with a total investment of USD 450,000. I also oversaw the implementation of a mobile software solution for the oil and chemical division, with a budget of USD 50,000, and the introduction of a new human resources and payroll system, with a budget of USD 40,000. Some of the most relevant responsibilities in the role were:

- Management of the sector's CAPES and OPEX
- Defining the sector's strategic plan for the coming 10 years.
- Handling and assisting with internal and external audits
- Identifying and implementing new technology solutions
